

Trade Board Men to Prove Citizenship By Deporting Dirt

"Show your citizenship May 11-19 by ridding the city of that alien, dirt," W. H. Carter, president of the Board of Trade, advised today. "We can do some deporting along that line which will be as beneficial as any other, and the city needs it. Your citizenship will be judged by the way you cooperate in the spring clean-up. It should be the best ever this spring."

The Board of Trade will assist in the clean-up and President Carter is going to see that clean yards, like charity, begin at the homes of board members.

The trinity of dirt chasers will be paint, elbow grease and rakes. Citizens are urged by President Carter to remember that a back yard was not intended for a junk pile and that tin cans have never won a beauty prize.
