

# INTERNMENT UNDESIRABLE ALIENS ASKED

---

## Returned Soldiers of Winnipeg Will Urge Step on Manitoba Government

---

WINNIPEG, May 13.—The interment of all undesirable aliens and their deportation back to their own country will be urged upon the provincial government Wednesday morning by a committee appointed at the mass meeting of returned soldiers held on Saturday afternoon last. The committee will be led by J. W. Jenkinson, chairman. Mr. Jenkinson said today that the provincial authorities will be asked to press this matter upon the federal government and failing satisfactory action from Ottawa appeal to the electors of the province for a mandate.

Premier T. C. Norris was disinclined to speak about the matter before the resolution had been officially brought to his attention, but it was estimated from a ministerial source that the resolution moved at the mass meeting is not taken very seriously.
