### LIVERPOOL STRIKES.

There is every prospect that the influence of labor troubles in ports of the United Kingdom is going to be felt here again, as already it appears that the Scotian of the Canadian Pacific Ocean Services, which was due to sail yesterday, is being held up. There is also up to the present no word of the Canada, White Star-Dominion Line, having sailed on Monday, as it was scheduled.

### THE SICILIAN.

The Sicilian, C. P. O. S., will in all probability sail this morning at an early hour with only a small part of its German prisoners of war aboard, these being the mental cases. The greater part of the civilians from the internment camps will be taken down to Quebec and embarked there.
