

# STOPPING REDS AT THE BORDER

## Canadian Authorities Watch For Foreigners Trying to Escape U. S. Net

(Special Despatch to The Globe.)

Windsor, Jan. 8. — Fearing that the action of the United States Government in rounding up persons suspected of Bolshevism may result in many of these undesirables attempting to enter Canada to evade deportation, Orval G. Adams, Inspector in charge of immigration at Windsor, has detailed special officers for duty at Windsor and Walkerville ferry docks and the entrance to the Michigan Central tunnel.

All foreigners arriving at Windsor are now being closely questioned as to their views on the Soviet form of government. This work is being done by men who have had experience with allens, and any person not giving satisfactory explanation for leaving the United States will in subjected to further inquiry by a special board.

That the Dominion Government may take similar action to that of the United States authorities in dealing with foreign agitators was intimated to-day by border officers.

### U. S. JURIST DIES.

Baltimore, Jan. 8.—George White-lock, Secretary of the American Bar Association, died to-day. He was sixty-six years old.
